# ABOUT COMPANY

**Batangas WRS Supplier began as a dream.**

Its founder, Aaron Christian Earl C. Bermundo, started out as an employee in the water filtration industry. Through years of hands-on experience, he learned the technical process of water treatment, the importance of quality materials, and the impact of clean water in people's lives. What began as work became a passion—and later, a calling.

Together with his wife, Raiza U. Bermundo, who shared the same vision of building their own company, Aaron dreamed of starting a business rooted in their hometown of Batangas. United by their purpose and values, they committed to creating a water systems business that would not only serve their local community but grow beyond borders—expanding to CALABARZON, across the Philippines, and eventually, to international markets.

Driven by the desire to serve their home province, Aaron and Raiza took the leap to establish a company that would bring affordable, efficient, and reliable water systems to Batangas and beyond. From humble beginnings, Batangas WRS Supplier was born with a mission to deliver not only equipment but solutions that make a difference in everyday lives.

# WELCOME MESSAGE

Greetings!

Welcome to Batangas WRS Supplier.

What started as a simple dream—to provide clean and reliable water to our community—has grown into a purpose-driven company grounded in faith, service, and excellence. Together with my wife and co-founder, Raiza, we built this company not just to supply equipment, but to offer real solutions that improve lives.

Every system we install, every site we visit, and every client we serve is part of a bigger vision: to create a trusted name in water solutions—beginning in Batangas, reaching CALABARZON, and expanding across the Philippines and beyond.

At Batangas WRS Supplier, we believe that clean water is not a luxury—it's a right. That's why we are committed to delivering only the best in water system design, filtration, and service.

**Guided by the verse:**

**"Out of His heart will flow rivers of living water."**

**– John 7:38**

**We aim to be a source of life and quality service in every project we handle. Thank you for trusting us—we look forward to serving you with excellence and heart.**

**Aaron Christian Earl C. Bermundo**

*Ceo and Founder of Company*

# VISION & MISSION

## VISION

To be a trusted leader in water system solutions, starting from Batangas and expanding throughout CALABARZON, across the Philippines, and globally bringing life, innovation, and faith-based values to every project we serve.

## MISSION

- Provide clean, safe, and reliable water system solutions tailored to the needs of each community and client.
- Deliver excellent service through skilled workmanship, responsive support, and genuine care.
- Uphold integrity and transparency in every project and transaction.
- Practice sustainability by promoting responsible water use and offering eco-friendly solutions.

# OUR GUIDING VERSE

**"Out of His heart will flow rivers of living water." – John 7:38**

This verse is the spiritual foundation of our work. It reflects our commitment to be a channel of life and blessing to others through the services we provide. Just as Jesus offers living water that gives life, we strive to deliver life-giving solutions—ensuring that every project we handle brings health, cleanliness, and sustainability to the communities we serve.

Our goal is to let our service flow with integrity, compassion, and excellence—just like rivers of living water.

# OUR COMMITMENT

- **Quality:** We use tested and reliable parts and equipment to ensure lasting solutions.
- **Service:** Fast response and flexible service packages for every type of client.
- **Integrity:** Honest pricing, transparent recommendations, and dependable results.
- **Sustainability:** Environment-friendly options for a better tomorrow.

# VISION & MISSION

## VISION

To be a trusted leader in water system solutions, starting from Batangas and expanding throughout CALABARZON, across the Philippines, and globally bringing life, innovation, and faith-based values to every project we serve.

## MISSION

- Provide clean, safe, and reliable water system solutions tailored to the needs of each community and client.
- Deliver excellent service through skilled workmanship, responsive support, and genuine care.
- Uphold integrity and transparency in every project and transaction.
- Practice sustainability by promoting responsible water use and offering eco-friendly solutions.

# OUR TEAM

**Aaron Bermundo**  
*Chief Executive Officer*

As the founder of Batangas WRS Supplier, Aaron leads the company with strong technical knowledge and hands-on experience in water filtration systems. His vision and leadership guide the company's growth, innovation, and commitment to service excellence.

**Raiza Bermundo**  
*Chief Administrative Officer*

Raiza oversees company operations, client coordination, and internal systems. Her strength in administration and strategy ensures the smooth flow of projects and day-to-day operations, supporting the company's mission with heart and structure.

**Cyra Mae Cruz**  
*Sales and Marketing Manager*

Cyra leads business development, client engagement, and promotional efforts. With her passion for service and clear communication, she helps expand the company's reach while building strong, lasting client relationships.

# OUR PRODUCT & SERVICES

Batangas WRS Supplier is your trusted provider of complete water treatment systems, pressure tanks, pumps, and accessories designed for residential, commercial, and industrial applications. With a strong foundation in quality, expert service, and customer satisfaction, we proudly serve clients across Batangas and neighboring provinces, ensuring reliable water solutions for every need.

## 1. Water Treatment Systems

We offer customized, complete solutions for treating and purifying water to meet local and international quality standards.

- Reverse Osmosis Systems (RO) – 100 GPD to 24,000 GPD capacity
- Water Softener Systems – Removes hardness-causing minerals
- Carbon & Multimedia Filtration Systems – Removes sediments, chlorine, and organic matter
- Iron Removal & Manganese Filters
- UV Sterilization Units – For biological disinfection
- Alkaline and Mineralization Systems

## 2. Pressure Tanks

Ensure consistent water pressure and prolong the life of pumps with our durable and high-quality tanks.

- Vertical & Horizontal Pressure Tanks – From 24L up to 2000L capacity
- Hydro-pneumatic Pressure Tanks – For deepwell and booster systems
- Brand Options: Best Tank, Good Tank etc

### 3. Water Pumps

We supply a wide range of efficient and durable pumps for various purposes.

- Submersible Deepwell Pumps
- Booster Pumps
- Centrifugal Pumps
- Surface Jet Pumps
- Stainless Transfer Pumps
- Automatic Pump Controllers

## 4. Filters and Cartridges

- Sediment Filters (1 to 20 microns)
- Carbon Block Filters
- String Wound & Melt Blown Cartridges
- Iron Removal Media, Siliphos, Activated Carbon

## 5. Water System Accessories & Supplies

We complete every installation with high-grade components.

- Filter Housings & Brackets
- Control Valves (Automatic/Manual)
- FRP and Stainless Steel Vessels
- Fittings, Piping, and Connectors
- Flow Meters, Pressure Gauges, and Sensors
- Water Quality Testers (TDS, pH meters)

# Industries We Serve:

- 🏠 Residential Communities
- 🏢 Commercial Establishments
- 🏭 Industrial Plants & Factories
- 🏫 Schools and Hospitals
- 💧 Water Refilling Stations
- 🏛️ Religious and Civic Institutions
- 🛠️ Construction & Building Projects

# OUR PROJECT

## ◆ Water Refilling Stations

We specialize in the design, supply, and installation of complete Reverse Osmosis (RO) systems for new and existing water stations.

Services Include:

- Multi-stage RO systems (e.g., 600–24,000 GPD capacity)
- Stainless piping and UV sterilization for product safety
- Mineral, alkaline, or hydrogen system add-ons
- Pressure tank integration and water testing
- Full installation, maintenance, and 1-year warranty support

## ◆ Residential Home Filtration Systems

We provide affordable and compact solutions to improve household water quality, addressing issues like sediment, iron, chlorine, and hardness.

Systems Offered:

- Under-sink and countertop filters
- Multimedia and carbon filtration
- Water softeners for shower and laundry systems
- Alkaline and UV systems for safe drinking water
- Deepwell integration and pressure tank setup

## ◆ Commercial & Industrial Water Systems

We engineer reliable, high-capacity systems for businesses needing consistent water supply, pressure control, and quality filtration.

Applications Include:

- Hotels, resorts, restaurants, and malls
- Manufacturing and food processing facilities
- Pump and tank systems for high-rise buildings
- Customized solutions for specific industry needs (iron removal, softeners, etc.)

## ◆ Hospital and Medical Facilities

We design and install specialized water treatment systems to support sanitation and patient care in healthcare environments.

Key Features:

- Medical-grade Reverse Osmosis units
- UV sterilization to eliminate bacteria and viruses
- Water softeners for equipment and dialysis support
- Stainless piping and secured system enclosures

## ◆ Government and Institutional Projects

We collaborate with LGUs, schools, barangays, and government agencies to deliver safe and sustainable water systems that benefit communities.

Scope of Work Includes:

- Supply and installation of water filtration for schools and barangay halls
- Deepwell pumps, pressure tanks, and iron removal systems for public use
- Design of large-capacity RO systems for public markets or facilities
- Site inspection, proposal submission, and compliance documentation
